To whom it may concern:

Writing the letter of recommendation for Aishwarya Bhargava is a welcome opportunity to reminisce about her astounding performance and contributions at the Finance Shared Services Department of **Allianz Partners**. Aishwarya, right from the beginning of joining as an Assistant Manager - RPA, has been an extremely valuable asset to our organization. In a short span of one month, she migrated 20+ automations for the company, and while before this they weren't fully functional, she solved this issue seamlessly. She has developed multiple automation as well for different business units of the organization such as the global team. I was totally impressed by the trajectory of the work she followed since she not only was responsible for gathering requirements and developing but also for testing and the final deployment, which she did commendably. For her good work and effort, she has been praised by her seniors quite often and has also received multiple awards for this.

I can corroborate that Aishwarya has a good working knowledge of the UiPath Tool and Robotic Process Automation Technology. Furthermore, she is extremely keen on learning new things and therefore is constantly on the lookout to excel and upscale, which is a praiseworthy trait to have. That being said, she can work well within a team by virtue of her strong interpersonal and communication skills but also knows how to set herself apart from the crowd through her work. With an ability to work independently and with minimum supervision, she truly has been a very reliable and supportive teammate over the entire duration of our association. Her performance, which is exceptional, is further enhanced by her strong work ethic and personality, and also her adaptability to the work environment and accountability. All in all, she has shown great promise while being associated with us, and definitely has a good proficiency that she will bring with her to your organization as well.

Furthermore, Aishwarya possesses exceptional interpersonal skills, which enable her to establish and maintain positive working relationships with clients, stakeholders, and team members alike. Her effective communication style, combined with her empathetic and approachable nature, makes her an excellent collaborator and problem solver.

From what I have seen of Aishwarya throughout the time we have been associated together, I can confidently say that she will be a great addition to any organization that she joins simply because she is immensely motivated and dedicated. Her combination of technical expertise, leadership abilities, and dedication to excellence make her an exceptional candidate. I have no doubt that Aishwarya will be a valuable asset to any organization fortunate enough to have her as a team member. Therefore, I strongly recommend her to you and wish her the best of luck in all her future endeavors. Feel free to contact me if you have any queries.

Best Regards,

Panagiotis Theodotos

Her former Senior Manager at Allianz Partners
